DPDPA COMPLIANCE SUITE

Powered by

digio

Compliance isn't optional. Readiness is.

The Enterprise DPDPA Roadmap

1

Data Flow Monitoring

Conduct data mapping exercise

Implement appropriate security controls

Review cross-border data transfer mechanisms

Create data breach detection mechanisms

Implement data anonymization protocols

Adopt data minimization practices

2

Data Privacy Compliance

Implement Consent management system

Data Subject Rights

Update privacy policies and notices

3

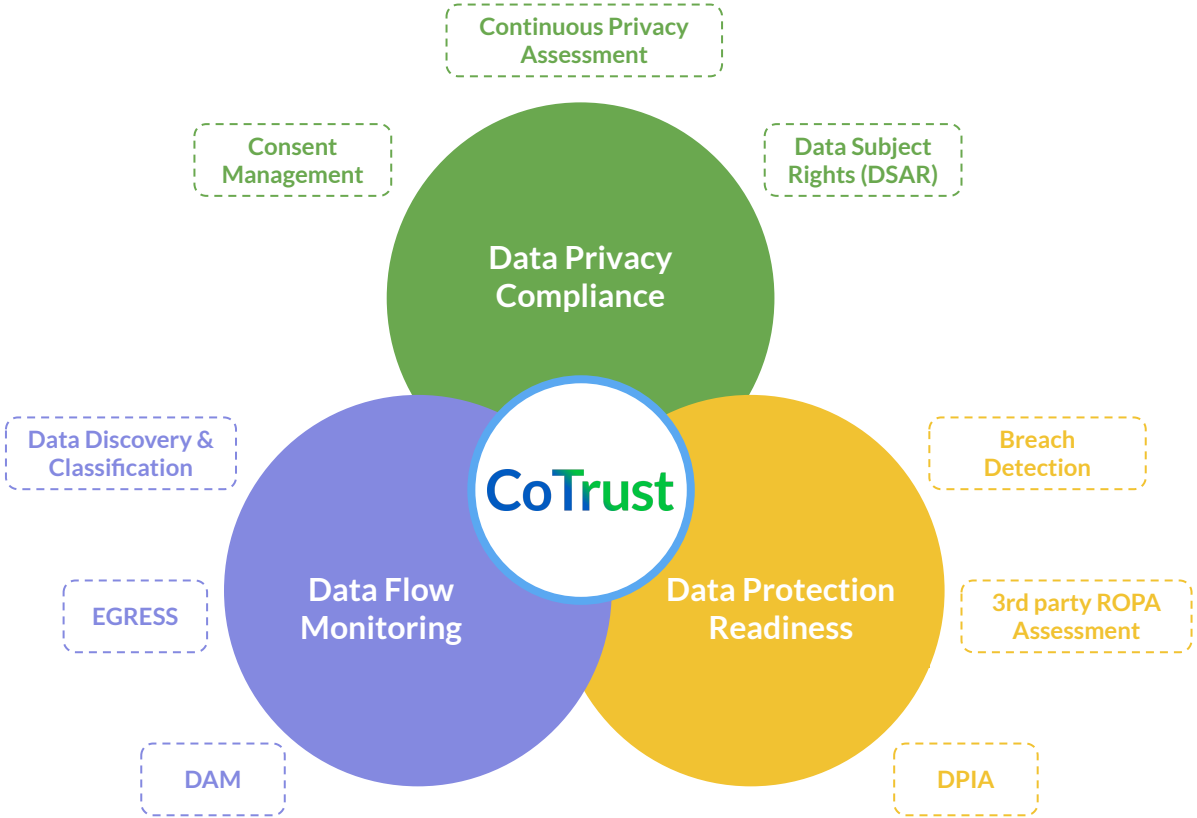
Data Protection Readiness

Update Vendor Contracts for processor obligations

Establish data breach response plan

DPIA

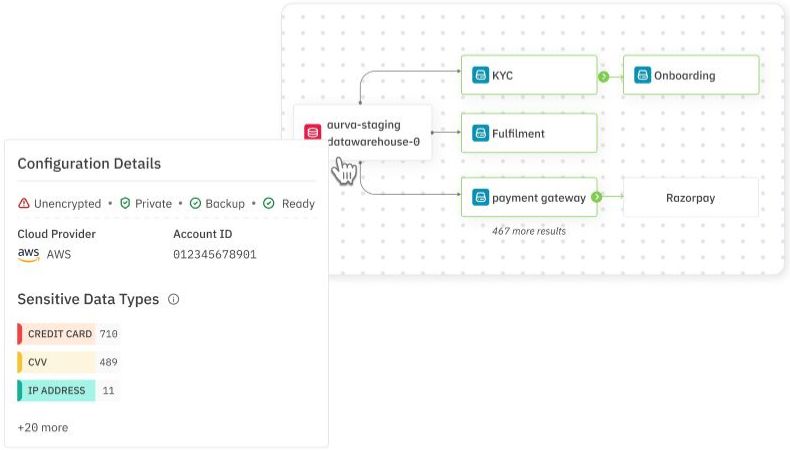
One Solution for Comprehensive DPDPA Compliance



Data Flow Monitoring

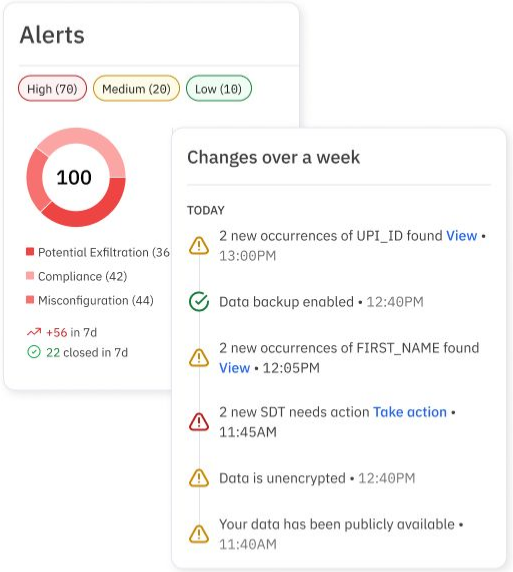
DSPM

Identify sensitive data & establish data lineage



- **Automates** the discovery, classification, and access of critical data
- Provides end-to-end **data lineage** and **real-time internal data flow at granular level**.

Risk assessment + alert on any unusual activity



CoTrust Advantage

ML models extensively trained to identify sensitive personal data in Indian context

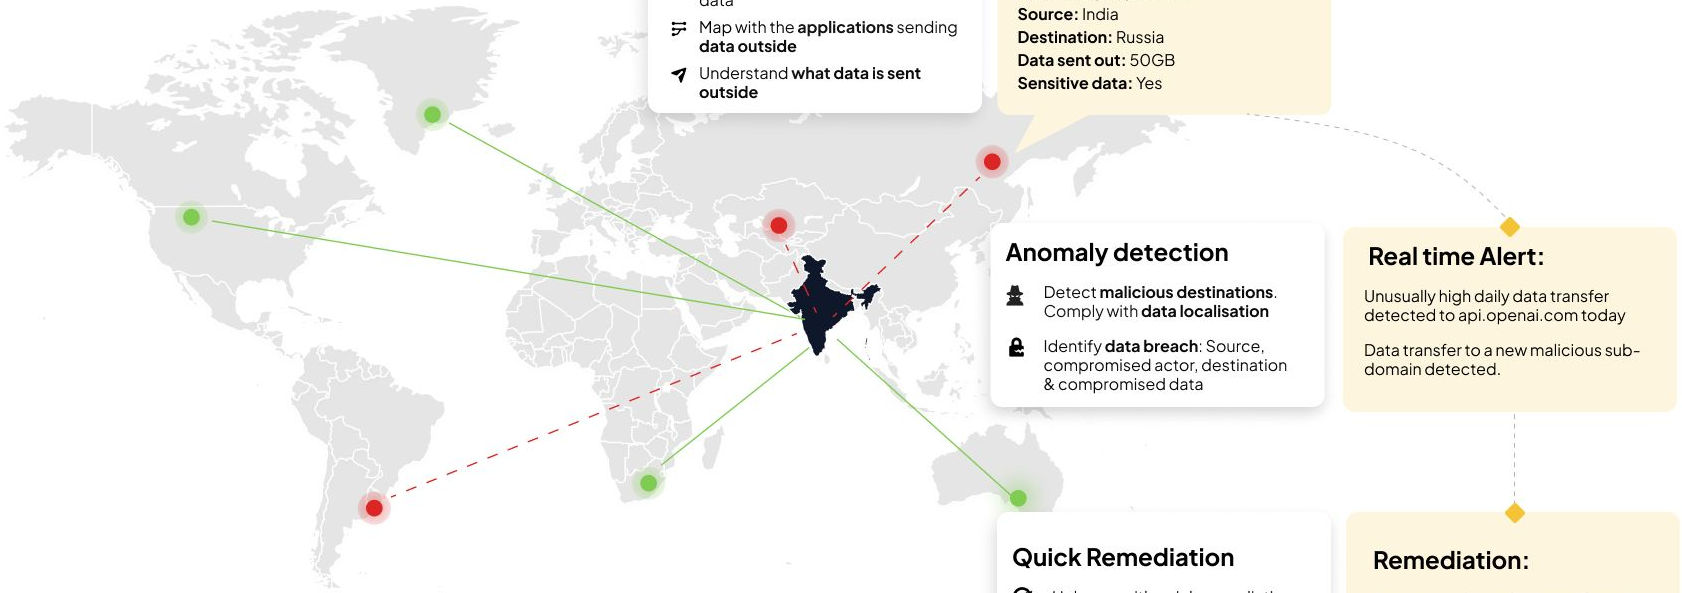
Automated inventory & lineage mapping across environment

Agentless eBPF based

Data Flow Monitoring

digio

Egress



Identification

- Identify all **Third parties** accessing data
- Map with the **applications** sending **data outside**
- Understand **what data is sent outside**

Actors information:

Domain: api.openai.com
Source: India
Destination: Russia
Data sent out: 50GB
Sensitive data: Yes

Anomaly detection

- Detect **malicious destinations**. Comply with **data localisation**
- Identify **data breach**: Source, compromised actor, destination & compromised data

Real time Alert:

Unusually high daily data transfer detected to api.openai.com today

Data transfer to a new malicious sub-domain detected.

Quick Remediation

- Help you with quick remediation

Remediation:

Aurva remediates for you with you!

CoTrust Advantage

Faster MTTR & MTTD with swift breach detection

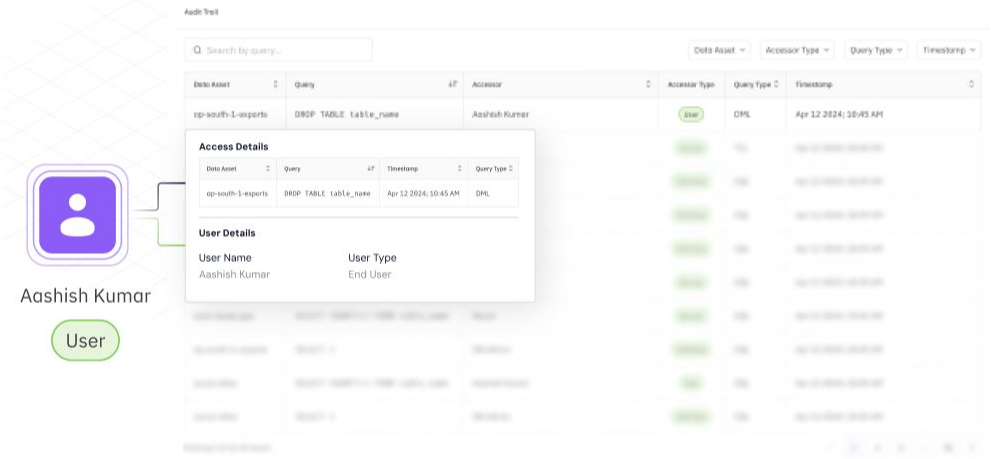
No Computational Impact

Remediation assistance like your extended team!

Data Flow Monitoring

DAM

Data Visibility & Access Governance



Gain full visibility with comprehensive audit trails and access controls for proactive data security.

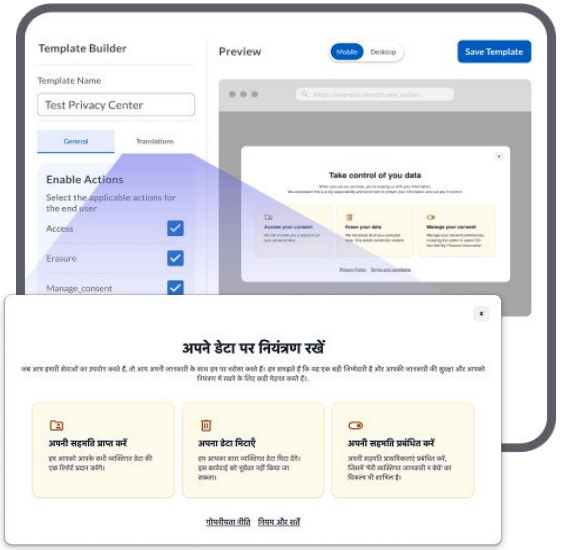
CoTrust Advantage

- Real-Time Data Flow Monitoring
- User Identity Attribution
- Granular Access Intelligence

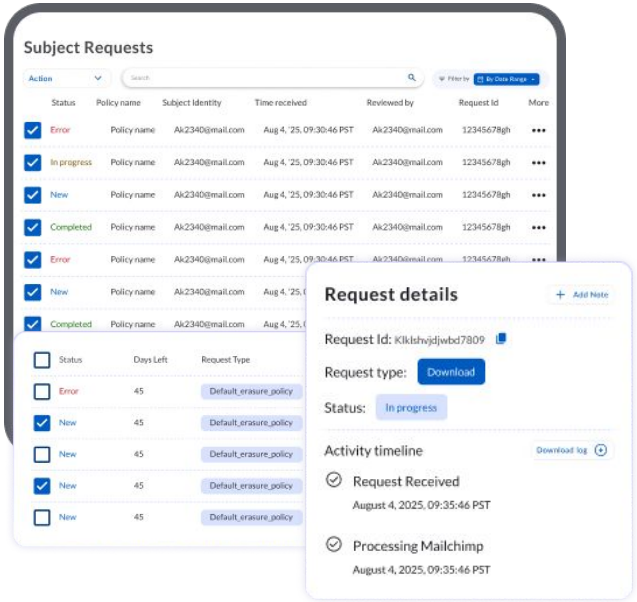
Data Privacy Compliance

Privacy management

Consent Collection Templates



Data Subject Rights Enablement



CoTrust Advantage

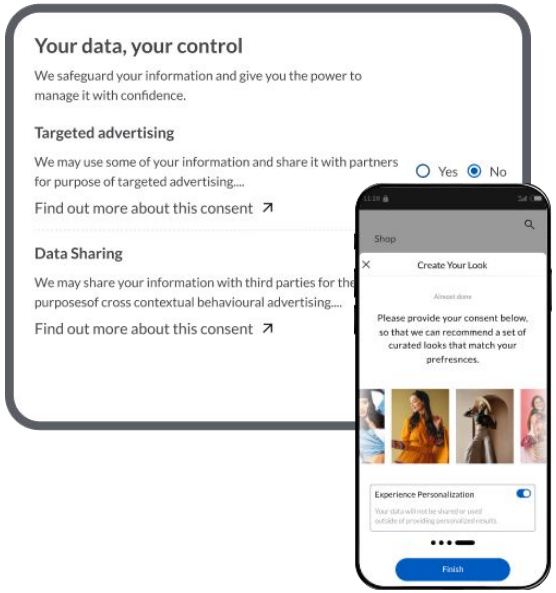
- Auto-mapping of processing purposes on user data across environments
- Customisable no-code SDK & multilingual templates for creating consent notices & privacy centre
- Detailed audit trails on privacy requests and processing activities

Data Privacy Compliance

digio

Privacy Automation

Progressive Consent



DSR Workflows

CoTrust Advantage

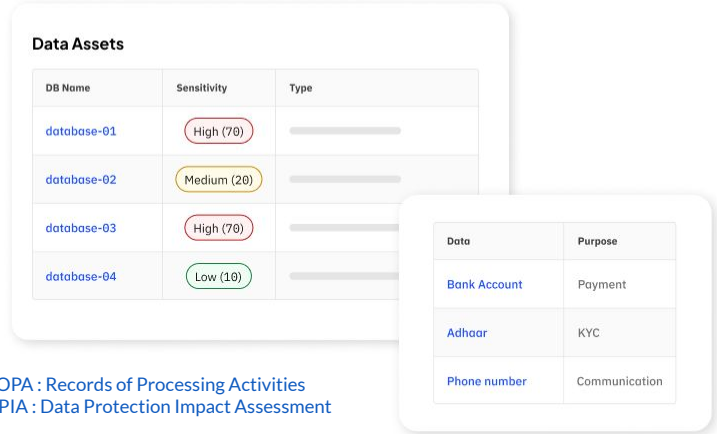
- Embed privacy choices directly into user journeys, increasing customer opt-ins
- Automate progressive consent collection basis User events without disrupting experience
- Automate DSR workflows basis processing purpose

Data Protection Readiness

digio

Threat Intelligence

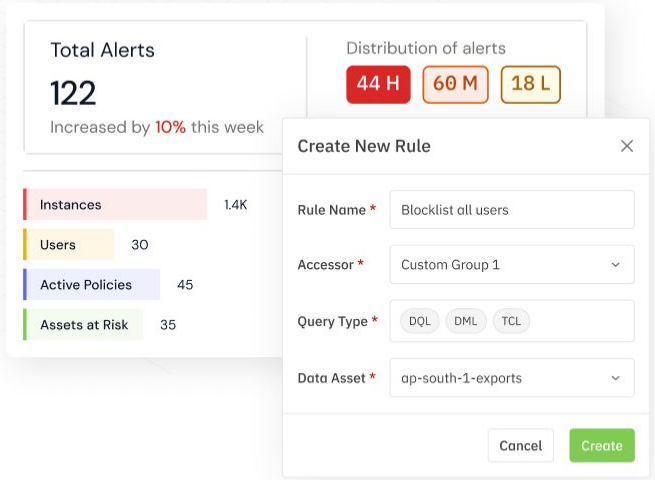
ROPA and DPIA



ROPA : Records of Processing Activities
DPIA : Data Protection Impact Assessment

- Understand the data collected, where it is stored and how it is being used
- Identify the purpose for which application or data processors are using the data

Real-time Alerts & Incident Response

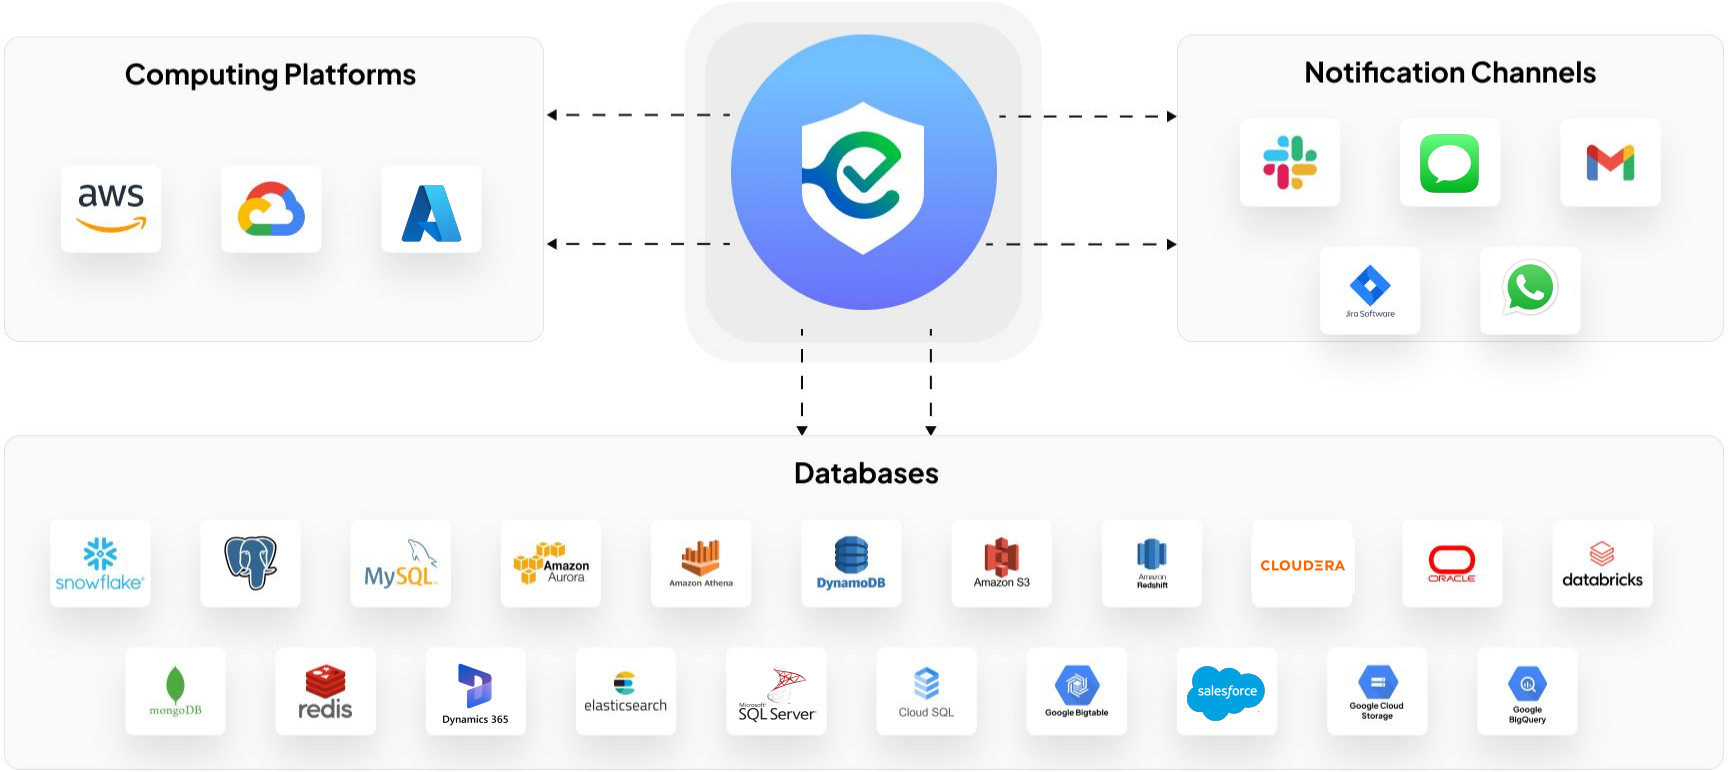


Detect and respond instantly to unauthorized access or data breaches with real-time alert policies , ensuring compliance and protection.

CoTrust Advantage

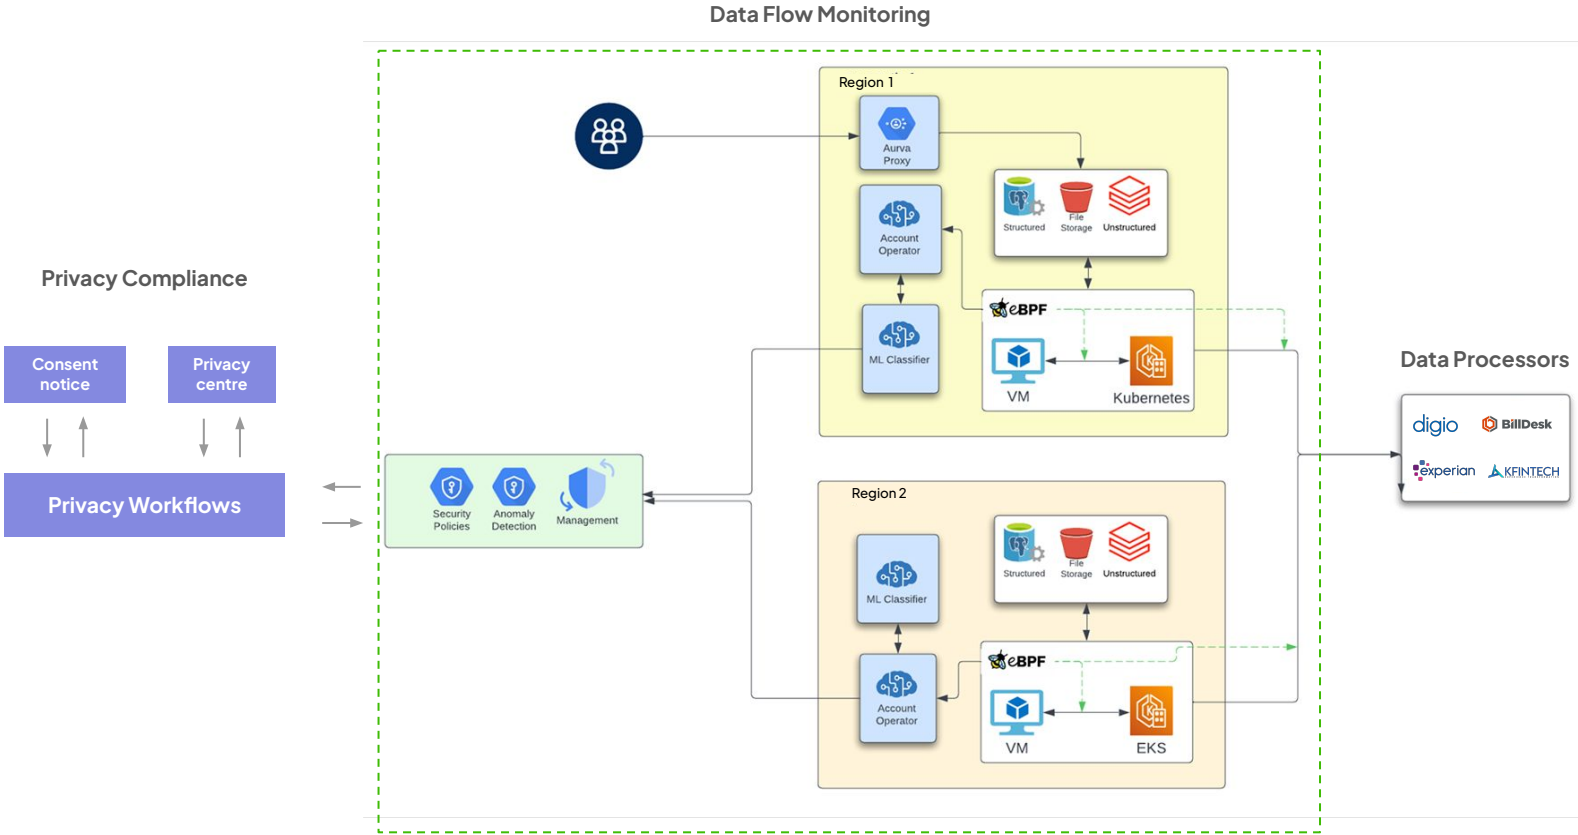
- Complete impact assessment in less than a week
- Continuous vendor assessment to ensure DPDPA processing compliance
- Instantly respond to data breaches with configurable alert policies

Integrations



Technical Architecture

How data flows are monitored



Compliance Delivered for Every Organization
